*OUR VISION FOR THE FUTURE
INCLUDES VALUABLE PARTNERS
AND PATIENTS LIKE YOU.*

We are excited to share our 27th annual Retina Consultants of Houston calendar with you in what may be a significant and auspicious year for eye doctors – 2020.

Our expert team of photographers submitted their favorite and most interesting cases from the past year for this special edition. For the first time in our calendar history, we are showing you some of our best cases in 3-D. We encourage you to use a Loreo Pixi 3D viewer (available on Amazon!) to see a Chronic Retinal Detachment (January), a Papilledema (April) and a Melanocytoma (October) pop out of the page. Stereo imaging has been used to help diagnose retinal diseases for more than 100 years and is still used in our clinics at RCH. Ophthalmologists were using 3-D imagery long before it made its appearance on the big screen and on TV.

We are always looking for ways to better serve patients throughout the Houston area. We opened our new Lufkin office in 2019 and we are excited to announce that we will be moving our Sugar Land office to a bigger, brand new space in early 2020. Be on the lookout for an announcement from us in the coming weeks.

We also recently launched a new website with distinct homepages for patients and referring doctors. You can toggle between our “For Patients” and our “For Doctors” homepages to find the information that is most important to you. Interested in attending one of our CE events? See what’s on our event calendar, join our mailing list and register for our CE courses, directly through the site.

We are pleased to be able to offer a HIPAA compliant referral form directly through our website at houstonretina.com. Complete the necessary patient information, provide us with your contact information and we’ll take care of the rest. Of course, you are still welcome to call our office to schedule an appointment for your patient or fax over a consultation request form – also available on our website.

As we head into 2020, we wanted to take a moment to thank you for trusting us to care for your patients. It is an honor and a privilege to be able to offer the highest level of personalized care and service to every patient.

Sincerely,

The Physicians at Retina Consultants of Houston

Envision in 3-D!

Every year we select our most striking patient images to share with you in our commemorative calendar. When you see this symbol next to an image pair, you can view it in 3D. Stand several feet away and use a Loreo Pixi 3D viewer to watch the image come to life.

The image contains four circular intraoperative photographs arranged in a 2x2 grid. Each photo shows the interior of an eye during surgery. In the top-left photo, a circular structure is visible in the center. In the top-right photo, a surgical instrument is positioned near a central structure. In the bottom-left photo, a surgical instrument is actively manipulating a structure. In the bottom-right photo, a surgical instrument is positioned near a central structure. The background of the entire image is black.
